

RE: CG Docket No. 03-123

Federal Communications Commission (FCC)

445 Twelfth Street SW

Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mr. T. Howard".

Re: CG Docket No. 03-123

Dear Chairman Martin, Commissioners' Adelstein, Copps, McDowell & Tate,

I am writing regarding deaf people that I know who have been able to communicate in a much more efficient manner than ever before. This is because of the VRS System that they have been able to use recently. Many are now able to make their own doctor's appointments, talk with hearing relatives and have been able to carry on quality conversations with their hearing friends as well as communicate freely with deaf friends.

Deaf individuals have a different way of communicating with each other and oftentimes, their grammar is hard for the hearing to comprehend, but these VRS interpreters are skilled in the deaf communication and therefore, make conversations more easily understood than any TTY has been able to do in the past.

Another thing to consider, is that when deaf people go to hospitals for emergency treatments, it is very hard to get an interpreter on the spot when needed. If all hospitals were equipped with VRS, the deaf could more efficiently communicate their problems to the doctors, nurses and staff through this service. Also, it would increase the confidentiality of these visits as most of the interpreters would not be from the clients' hometowns. VRS could also be used in Federal Offices such as the Social Security Administration, License Bureau's, etc. These units could be set up on a rolling stand and if a deaf person came in for an interview, the interviewer could relate their questions with much less time and trouble as conversation is almost instant.

These are just a few of the ways VRS could help both deaf and hearing individuals and I am pleading with you to not only keep the existing services, but to consider increasing them, because in the long run, it

would be much more cost efficient for businesses, schools, hospitals, etc, to tap into using Video Relay Service, rather than having to use very highly paid Sign Language Interpreters, who might not be available when needed.

Very truly yours,

Paul Collier
Sen. Inhofe

RE: CG Docket No. 03-123; TRS Fund—Drastic VRS Rate Cuts

Dear Chairman Martin,
Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is proposing a drastic cut to the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS
- Improve service and technology so the mandate of the Americans with Disabilities Act (ADA) for functionally equivalent telecommunications services is met

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the ADA to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

(wife)
